THIS QUESTION PAPER CONSISTS OF 8 PAGES (Including this front page and 3 Data Sheets)

## Question 1

1.1. Surveying can be divided into fieldwork and office work, briefly explain BOTH.
1.2. List the TWO principal classifications of surveying. Fully explain BOTH.
1.3. Setting out is the process of using surveying equipment and techniques to transfer information from a plan to the ground. Describe the THREE distinct elements of setting out.
1.4. Briefly explain the FOUR important aspects of a resection.
1.5. Briefly describe the term "Trigonometrical Levelling".

## Question 2

## Please note:

The Instrument Correction and Prism Constant, the Atmospheric Correction, and the Conversion to German Legal Metre are already applied to all measured distances.

Combined Sea level \& Scale Enlargement Factor $=1+\left[\left(y^{2} /\left(2 R^{2}\right)\right)-(H / R)\right]$, where $R=6370 \mathrm{~km}$.
