| SECOND OPPORTUNITY/SUPPLEMENTARY EXAMINATION QUESTION PAPER |  |
| :--- | :--- |
| EXAMINER: | Mr F. J. Louw |
| MODERATOR: | Mr S. Sinvula |

INSTRUCTIONS

1. You MUST answer ALL QUESTIONS
2. Write clearly and neatly.
3. Number the answers clearly.
4. Make sure your Student Number is on the EXAMINATION BOOK(s).
5. MAKE SURE YOUR STUDENT NUMBER IS ON ALL THE DATA SHEETS AND THAT YOU SUBMIT THEM WITH YOUR EXAMINATION BOOK(S).

PERMISSIBLE MATERIALS

1. Calculator, ruler, pen, pencil, and eraser.

THIS QUESTION PAPER CONSISTS OF 7 PAGES (Including this front page and 3 Data Sheets)

## Question 1

1.1. Write short notes to explain the following terms:

### 1.1.1. Intersection.

1.1.2. Systematic Errors.
1.1.3. Engineering Surveys.
1.1.4. Reverse Polar.
1.2. How wide is one belt in the Namibian coordinate system, based on the central meridian?
1.3. Why should intermediate sights onto important points be avoided during levelling?
1.4. Name the THREE basic methods of determining a distance.
1.5. Explain the term Reconnaissance in terms of a traverse.

## Question 2

2.1. Points $A, B, C$ and $D$ were placed around a dam for the survey of a proposed water right. As neither $A$ to $C$, nor $B$ to $D$ was intervisible, the distances $A B, B C, C D$ and $D A$, and the angles at $A, B, C$ and $D$ were measured. Unfortunately, it was discovered that only the recorded value of angle C was correct. From the information given in the sketch below, calculate the values of angles A, B and D. Please perform all possible checks.

2.2. Use the levelling observations given in Data Sheet 1 to fill up the missing readings ( $\mathbb{K}$ ) and apply the usual checks on the final heights of all the points. All checks need to be shown and any misclosure needs to be distributed. Please detach the data sheet and submit it with your examination book.

## Question 3

3.1. Calculate the final coordinates for the traverse points on Data Sheet 2. Use the said data sheet for all your calculations. Use the Bowditch Rule to adjust the traverse. Please note that the directions are oriented, and the distances are final horizontal distances. Please detach the data sheet and submit it with your examination book.
3.2. Calculate oriented directions for the traverse by completing the direction sheet on Data Sheet 3 . Use the said data sheet for all your calculations. Please detach the data sheet and submit it with your examination book.

## Question 4

Use the information and observations below to calculate the coordinates for the point RESEC, by using the Q-point method for a resection calculation.

## Co-ordinates

| Name | Y |  |  |
| :---: | :---: | :---: | :---: |
| $\triangle$ EROS | - 10489.688 | + 60 |  |
| $\triangle$ KLEINE | - 10567.964 | + 70 |  |
| $\triangle$ SWP | - 4680.105 | + 62 |  |
| @ TOP | Height of Inst | ment |  |
| Name | Final | bserve |  |
| $\triangle$ KLEINE | $331{ }^{\circ}$ | '04" |  |
| $\triangle$ SWP | $108^{\circ}$ | '01' | Long Leg |
| $\triangle$ EROS | $238{ }^{\circ}$ | ' 27 |  |

## Question 5

5.1. Use the information and observations below to calculate the coordinates for point WIT.

## Please note:

- The Prism Constant, the Atmospheric Correction, the Conversion to German Legal Metre and the Combined Sea level \& Scale Enlargement Scale Factor correction are already applied to all measured distances.
- The directions are FINAL OBSERVED DIRECTIONS.

## Co-ordinates

| Name | Y | X |
| :--- | :--- | :--- |
| $\triangle$ AUB | -26635.590 | +225710.350 |
| JOPIE | -10622.880 | +225193.620 |
| @ WIT | $\mathrm{HI}=1.750 \mathrm{~m}$ |  |
| Name | Final Observed Direction | Final Horizontal Distance |
| AUB $267^{\circ} 10^{\prime} 39^{\prime \prime}$ <br> JOPIE $208^{\circ} 40^{\prime} 45^{\prime \prime}$ |  |  |

5.2. Use the information below to calculate the coordinates for point INTER.

## Co-ordinates

| Name | Y | X |
| :--- | ---: | ---: |
| ST1 | +10380.000 | +35438.700 |
| ST2 | +9565.860 | +36102. |
| @ST1 | $\mathrm{HI}=1.585 \mathrm{~m}$ |  |
| Oriented Direction to INTER | $273^{\circ} 15^{\prime} 21^{\prime \prime}$ |  |
| @ST2 | $\mathrm{HI}=1.576 \mathrm{~m}$ |  |
| Oriented Direction to INTER | $261^{\circ} 41^{\prime} 54^{\prime \prime}$ |  |

Student Number $\qquad$ Data Sheet 1

## Question 2.2.

The first table is only given to show the missing readings, use the second table to answer the question.

Height of Collimation Levelling Sheet

| POINT | BACK | INTER. | FORE | COLL. | REDUCED | CORRECTION | FINAL |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | SIGHT | SIGHT | SIGHT | HEIGHT | LEVELS |  | LEVELS |
| TSM100 | ж |  |  | 1300.040 | 1296.475 |  | 1296.475 |
| a | 2.190 |  | 1.513 | ж | 1298.527 |  |  |
| b |  | 3.025 |  |  | Ж |  |  |
| C |  | 2.079 |  |  | ж |  |  |
| d | Ж |  | 1.548 | 1302.184 | ж |  |  |
