NAMIBIA UNIVERSITY
OF SCIENCE AND TECHNOLOGY

FACULTY OF COMMERCE, HUMAN SCIENCES AND EDUCATION

DEPARTMENT OF ECONOMICS, ACCOUNTING AND FINANCE

QUALIFICATION: POST GRADUATE DIPLOMA IN DEVELOPMENT FINANCE	
QUALIFICATION CODE: 08PGDD	**LEVEL: 8**
COURSE CODE: PFI810S	**COURSE NAME:** PROJECT FINANCE & INVESTMENT ANALYSIS
SESSION: JULY 2025	**PAPER:** THEORY AND CALCULATIONS
DURATION: 3 HOURS	**MARKS:** 100

SECOND OPPORTUNITY EXAMINATION QUESTION PAPER	
EXAMINERS	Lameck Odada
MODERATOR	Dr Faeezah Peerbhai

INSTRUCTIONS

1. This question paper consists of FOUR (4) Questions.
2. Answer ALL the FOUR (4) questions in blue or black ink only. **NO PENCIL and TIPEX**
3. Start each question on a new page and number the answers correctly and clearly.
4. Write clearly and neatly and show all your formulas, workings, and assumptions.
5. Unless otherwise stated, round off final answers only to two (2) decimal places.
6. Questions relating to this examination may be raised in the initial 30 minutes after the start of the examination. Thereafter, candidates must use their initiative to deal with any perceived error or ambiguities, and any assumptions the candidate makes should be clearly stated.

PERMISSIBLE MATERIALS

1. Silent, non-programmable calculators

THIS QUESTION PAPER CONSISTS OF _5_ PAGES (including this front page)

QUESTION 1 **[40 MARKS]**

Pyotori (Pty) Ltd is a Namibian manufacturer, wholesaler, and retailer specializing in plastic extrusion products. Plastic extrusion is a high-volume manufacturing process in which raw plastic is melted and formed into a continuous profile. Extrusion produces items such as pipe/tubing, weather-stripping, fencing, deck railings, window frames, plastic films and sheeting, thermoplastic coatings, and wire insulation. Its products are sold to industrial customers on the domestic market, primarily through three stores situated in Windhoek, Walvis Bay, and Ongwediva.

The summarised statement of profit or loss and other comprehensive income and statement of financial position of Pyotori (Pty) Ltd for the year ended 30 September 2024 are presented below:

Statement of profit or loss and other comprehensive income

	N$'000	N$'000
Sales		176 780
Opening inventory	9 181	
Raw material purchases	48 169	
Manufacturing costs	111 380	
Closing inventory	(18 750)	
Cost of sales	149 980	(149 980)
Manufacturing profit		26 500

Statement of financial position

Current Assets	N$'000
Inventory - Raw materials	2 903
Work-in-progress	6 544
Finished goods	9 303
	18 750
Trade receivables	26 485
Current Liabilities	
Trade payables	8 974

Cash sales amount to 35% of total sales. The cost of sales figure of N$149 980 is based on actual sales. The total production costs for 2024, after allowing for changes in inventory levels of raw materials and work-in-progress, amounted to N$155 981. Trade payables comprise raw material purchases.

The Walvis Bay store wishes to increase its sales and has submitted the following request to Head Office:

Dear Directors

Our annual sales for the current year amounted to N$10 000 000, of which 25% was cash sales. Our current credit policy offers no early settlement discount to our customers, and on average, our debtors settle their accounts within 40 days. We currently do not have any bad

debts. Our store's contribution ratio is 30%. We believe that when the credit policy is changed, there will be an increase of 30% in credit sales to new customers, but the contribution margin is expected to remain unchanged.

Proposed changes in credit policy

1. Grant a 2% discount on cash sales and credit sales if an account is paid in 15 days. No discount if an account is paid after 15 days.
2. It is anticipated that 70% of current credit customers will take the discount, and the balance will be paid in 60 days.
3. There will be no change in the annual sales to cash customers.
4. Sixty percent of the new customers will take the discount, and the balance will be paid in 60 days.
5. Bad debts amounting to N$180 000 are expected from the increased sales.
6. Inventory will increase by N$600 000 while creditors will increase by N$200 000 to sustain increased sales.

The tax rate is 28%, and the weighted average cost of capital is 20%.

The Ongwediva store sells a product that it purchases from suppliers in Windhoek.

Annual demand	12 000 units
Unit cost	N$120
Fixed cost per order	N$1 125
Annual carrying cost per unit	10% of the unit cost

The supplier is prepared to offer a 2% discount on bulk orders of 2 000 units or greater.

REQUIRED:		**MARKS**
a)	Define and determine Pyotori (Pty) Ltd.'s cash operating cycle as at 30 September 2024. *Assume the company operates 365 days per year.*	**7**
b)	Explain why some companies have liquidity preference in cash management	**5**
c)	Calculate the annual after-tax cash flow benefit of changing the credit policy of the Walvisbay store. *Round off all amounts to the nearest dollar.*	**17**
d)	Calculate the savings in the total cost of inventory for the Ongwediva store with the discount on bulk orders	**11**

QUESTION 2 **[25 MARKS]**

Kalisto (Pty) Ltd is a fully Namibian-owned construction company. The company represents an ongoing endeavour to materially improve Namibia, now and in the future. Kalisto (Pty) Ltd can invest N$4 million in one of the two projects (Alpha or Omega) or a portfolio of Alpha and Omega. The following risk/return profiles have been provided:

		Estimated Returns		
Economic State	**Probability**	**Alpha**	**Omega**	**Market**
Recession	0.3	2%	25%	-
Boom	0.5	10%	22%	-
Depression	0.2	12%	-2%	-
Expected return		-	-	12%
Standard deviation		-	-	6%
Covariance with the market		25.2	39.6	-

The risk-free rate is 3% per annum, and no company or personal taxation exists.

REQUIRED		MARKS
a)	Calculate the expected returns and the risk for both projects	6
b)	If Kalisto (Pty) Ltd is to select only one project to invest in, which one would you advise the company to select? Motivate your answer with appropriate calculations.	3
c)	Determine the correlation between the two projects	4
d)	Determine the expected return and the portfolio's risk, assuming Kalisto (Pty) Ltd invests N$1.6 million Namibia dollars in Alpha.	6
e)	Calculate the required return for both projects according to the Capital Asset Pricing Model (CAPM)	6

QUESTION 3 **[10 MARKS]**

Project finance refers to financing long-term industrial and infrastructure projects, particularly in sectors like oil and gas, power generation, and transportation. It's also used to finance certain economic bodies like special purpose vehicles (SPVs), which are created to manage a single project.

REQUIRED	MARKS
Outline the project finance lifecycle	10

QUESTION 4 **[25 MARKS]**

Andora Group of companies (hereafter Andora) comprises companies with various business portfolios. Andora is evaluating an investment proposal to manufacture Product X2024, which has performed well in test marketing trials conducted recently by the company's research and development division. The following information relating to the investment proposal has now been prepared.

Initial investment	N$2 million
Selling price (current price terms)	N$20 per unit
Expected selling price inflation	3% per year
Variable operating costs (current price terms)	N$8 per unit
Fixed operating costs (current price terms)	N$170 000 per year
Expected operating cost inflation	4% per year

Due to its test marketing trials, the research and development division has prepared the following demand forecast. The forecast reflects expected technological change and its effect on the anticipated life cycle of Product X2024.

Year	1	2	3	4
Demand (units)	60 000	70 000	120 000	45 000

All units of Product X2024 produced are expected to be sold, per the company's policy of keeping no finished goods inventory. No machinery scrap value is expected at the end of four years when production of Product X2024 is planned to end. For investment appraisal, Andora uses a discount rate of 10% per year and a target return on capital employed of 30% per year. Ignore taxation.

REQUIRED: ***Show ALL your workings in N$000***		**MARKS**
a)	Identify any four non-financial (4) factors that Andora should consider in evaluating this investment proposal	**4**
b)	Calculate the Net Present Value (NPV) for the investment proposal and advise whether the investment proposal is financially acceptable. ***Round off unit prices to two (2) decimal places***	**16**
c)	Using a cost of capital of 20%, calculate the Internal Rate of Return (IRR) for the investment proposal **to the nearest whole number**.	**5**

END OF EXAMINATION PAPER
